Web Developer

Projects

- Agrotech-Market: Front-End

Github: https://github.com/Plamenov-Nevyan/Agrotech_Frontend

Deployed at Firebase: <https://agrotech-355416.web.app/>

This is a project made with the goal of being an online marketplace for agricultural vehicles, items and services. It includes notification, messaging, profile, shopping cart and buying systems. It was made with React and couple of libraries :

- React Router DOM
- UUID

- Agrotech-Market: Back-End

Github: https://github.com/Plamenov-Nevyan/Agrotech_Backend

Deployed at Heroku: <https://agro-tech-market.herokuapp.com/>

This project serves as a backend and database interaction for the Agrotech-Market: Frontend. It supports pagination, searching, sorting, categorization, file upload and long pulling. It has a working user authentication/authorization system and is able to make requests towards 3rd party API's, (Google, Mediastack). It uses MongoDB Cloud Database for persistent data storage. It uses the following libraries :

- ExpressJS
- Bcrypt
- JSONWebToken
- Node-Fetch
- Node-Mailer
- Mongoose
- GoogleAPI's
- Multer

- Cookbook

Github: <https://github.com/Plamenov-Nevyan/Softuni-Cookbook-SPA>

Deployed at Firebase: <https://sotuni-cookbook-spa.web.app>

This project was made with the goal of being a single page app, for sharing cooking recipes. It supports CRUD operations for recipes, likes, comments and user authentication/authorization system. It uses the following libraries:

- Lit-HTML
- Page.js

- Cubicle Workshop

Github: <https://github.com/Plamenov-Nevyan/Cubicle-Workshop>

This project was made with the goal of being an online shop for rubic cubes. It uses server-side rendering, and supports CRUD operations for rubic cubes and their accessories, and user authentication/authorization system as well. It uses the following libraries:

- Mongoose
- ExpressJS
- Express-Handlebars
- Bcrypt
- JSONWebToken

Education

Softuni EOOD, Apr 2021 – Current

- Completed Programming Basics : grade 6.00
- Completed Programming Fundamentals with JS : grade 5.89
- Completed JS Advanced : grade 6.00
- Completed JS Applications : grade 5.34
- Completed JS React: grade 6.00

University of Ruse – "Angel Kanchev", Sep 2015 – May 2019

- Bachelor Degree
- Specialization in Agricultural Engineering
- Participated in "Work and Travel". Rehoboth Beach, USA, 2016

Employment History

Machine-Operator, Nov 2019 to Nov 2020

Vendor-Consultant, Oct 2017 to Jan 2018
